Standard Features

- 1 RETENTION RAMP**
 Dual-action retention ramp is designed for convenient foot activation at ground level as well as hand activation at bed height, making it easy to load wheeled cargo.
- 2 TWO-FUNCTION CONTROL**
 Pendant control with raise/lower toggle and secondary platform fold function.
- 3 ALUMINUM TREADPLATE BRIDGE**
 The Aluminum treadplate bridge provides a smooth transition for moving cargo to and from lift platform to vehicle bed.
- 4 LOW-PROFILE PUMP BOX**
 Pump and motor housing fits compactly over the wheel well.
- 5 FLAT-LOADING TAPER**
 Platform rests flat at ground level, minimizing load angle.

2-YEAR STANDARD WARRANTY

Available Models

	Model Number	Load Area	Taper	Travel ²	Gate Weight
1100 lb.	Framed Aluminum Platforms				
	V2-56-1145 FA49¹	47 x 49	9	45	480

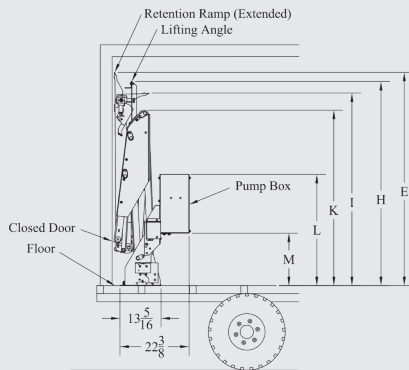

NOTES

1. FA49 Models must have the 9" retention ramp/taper engaged when storing the platform on lower roof models to avoid the ramp contacting the van frame.
2. Unladen bed-height cannot exceed 45" travel.
3. Provided brackets are intended to be building blocks to mount a V2 liftgate to a flat floor body. Modification to these parts and/or additional parts may be required.

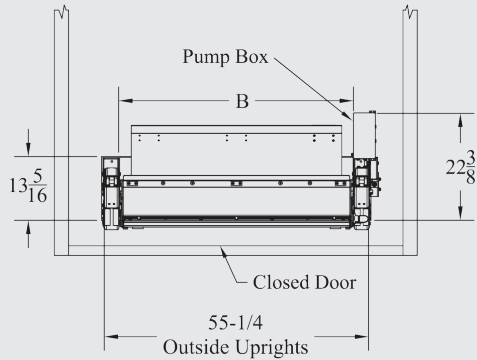

IMPORTANT

- There are numerous truck configurations and body styles. Check the clearance of the liftgate with any bumpers or additional equipment on the back of the truck.
- V2 Series liftgates reduce the door opening height by 2" (from the metal floor).
