

SIDE SENSOR RELOCATION APPLICATION CHART

**component functionality must be verified by installer*

For select newer pickup models, Tommy Gate now offers optional Side Sensor Relocation Kits compatible with G2 Series liftgates. The optional kits install on the side of the liftgate, repositioning the vehicle side-facing sensors*. These kits require a rear camera and sensor bar, sold separately.

MAKE	YEAR / MODEL	FACTORY SIDE-FACING SENSOR COMPATIBLE WITH TOMMY GATE	SIDE SENSOR RELOCATION KIT NUMBER
CHEVY/ GMC	2019-2024 1500 ²	YES	017956
	2020-2024 2500/3500	YES	017956
	2023-2024 Colorado Canyon	YES	018085
FORD	2024 Ranger	YES	018139
RAM	2019-2024 1500 ²	YES	016845
	2022-2024 1500 Classic	NO	N/A
	2019-2024 2500/3500 SRW	NO	N/A
	2019-2024 3500 DRW	YES	016845
NISSAN	2023-2024 FRONTIER	YES	17675
	2017-2024 TITAN	YES	17675

N/A = Not Applicable

IMPORTANT • Vehicles with the listed feature(s) require the listed side sensor relocation kit. Otherwise, only the Rear Camera and Sensor Bar Kit is needed.

- NOTES**
1. Feature names change over time. Look for these keywords to decide whether side sensors are present if only the window sticker or order information is available.
 2. Excludes "older" body styles that were sold under a similar model name in the same years:
 - 2019 Chevrolet Silverado 1500 LD
 - 2019 GMC Sierra 1500 Limited
 - 2019-2024 Ram 1500 Classic
